## *A Little Note From Us....*

---

We are exceptionally proud to be Queensland's first and most experienced giant tipi rental company!

With over 6000 hours combined experience in the field, building tipis in all terrain types – from the Coast's beautiful beaches to the windy peaks of the Hinterland's mountains, and having faced everything mother nature can possibly throw at us – we are the tipi company you can trust!

Lead by my gorgeous hubby Samuel, our Rigging Crew will ensure your tipis are built to meticulous standards. We will spend the days prior to and during your event closely monitoring the weather to ensure you have the perfect setting for your celebrations. And if the weather changes and you need sides adjusted or smoke caps closed you can count on us to be there to help because we are based here on the Sunshine Coast.

We also have an extensive knowledge of the Sunshine Coast event industry - including all it's suppliers and venues – and are here to provide advice if you need it.

We would be incredibly honoured to be chosen as part of your celebrations and will go above and beyond to make sure your event is perfect! Our goal is to exceed your expectations and create memories that will last a lifetime!

*Emma & Samuel x*
